

# Our Philosophy

---

## **Brown & Brown** **“The Best Local Broker, Nationwide”**

Our philosophy at Brown & Brown is to honor our client's insurance programs by providing high value service through our staff of qualified, dedicated professionals, applying the same degree of concern and diligence that YOU have for your organization, employees and their families. As one of the ten largest insurance brokers in the nation, our focus is to leverage our substantial premium volume, and range of vendor and insurer relationships on behalf of our local clients.

Developed with input from across our firm, our Culture Commitments are as follows:

- We are people with integrity.
- We are committed to continuous improvement and development.
- We are the Broker of Due Diligence.
- We live by “the Power of We.”
- We contribute our resources to the communities in which we live and work.
- We are accountable for results.

So that these are more than just words on paper, ask our associates to describe the consistent actions and behaviors that make these statements real to our clients and our employees. We are privileged and pleased to serve you and your organization going forward.

## **Brown & Brown** **“An American Meritocracy”**
